

## Investors and Clients Beware!

Please check your portfolio for Stericycle (SRCL) and *pull out now!* Your investment in Stericycle helps to support the company's daily collaboration with the abortion industry and makes possible thousands of innocent deaths each day.

Stericycle is lying to the public by denying its collection, transportation, and incineration of aborted children. Their "Waste Acceptance Policy" states that they do not accept "complete human remains". This statement is engineered to absolve them of guilt, since in their own admission the remains of aborted babies are neither considered "complete" or "human".

Stericycle President Mark C. Miller, blood money profiteer and abortion industry collaborator

Their precious little hands and feet and once beating hearts are thrown into the trash, and Stericycle helps keep the abortion industry cycle of death going.

If this isn't what you want, hold Stericycle and its millionaire President Mark C. Miller accountable for their actions, and call

upon them to STOP servicing the abortion industry. *Contact Mark Miller at mmiller@stericycle.com or (847) 607-2038 and tell him to stop profiting off of the blood of the innocent preborn.*

## The Campaign to Stop Stericycle

The Campaign to Stop Stericycle (CSS) exists to inform the public about Stericycle's involvement with the abortion industry and to exhort the nation to **call upon Stericycle to stop being a part of the village that is working to kill America's children.**

CSS has collected an overwhelming amount of evidence linking Stericycle to the abortion industry, and has uncovered sickening truths about the company's collection, transportation and incineration of aborted children. This includes recorded admissions from Stericycle and government documents that certify the use of Stericycle by the abortion industry.

*Join us in the fight!* Visit [stopstericycle.com/help](http://stopstericycle.com/help) for ways that you can get involved!

# Where have all the children gone?

**Without Stericycle—and businesses like it—the abortion industry collapses.**  
*Will you call upon Stericycle to stop servicing the abortion industry?*

## It Takes a Village to Kill a Child

Abortion mills can't take the lives of innocent, precious preborn children on their own. They need the help of numerous businesses to facilitate the murders of innocent boys and girls. As it was during Nazi Germany's Jewish Holocaust, there are businesses all across this country collaborating with the abortion industry in their diabolical agenda to kill thousands of "unwanted" persons.

Stericycle is the premiere "waste" service to the abortion industry, and as such is one of the top facilitators of the abortion holocaust. Abortion mills cannot operate without their help. With their greed, coupled with lack of conscience and ethics regarding human life, billion-dollar Stericycle is aiding and abetting abortion mills and keeping them in business. As a result, 4,000 children continue to be killed every day by the evils of abortion.

*If Stericycle and businesses like it stop servicing the abortion industry, abortion stops.*

Stericycle wheels out "pathological waste" from Planned Parenthood in Sacramento, CA

## Stericycle and Planned Parenthood

Stericycle reportedly services almost 600 Planned Parenthood locations across the country. In addition to slaying thousands of precious pre-born children every day – an estimated 115,000 babies and counting this year – Planned Parenthood is notorious for its cover-ups of child sex trafficking and statutory rape. A Planned Parenthood in Jefferson County, Kansas was recently leveled with 107 criminal counts of failure to report child rape, falsification of documents and more. In January 2011, seven Planned Parenthood offices were found to be assisting two undercover investigators posing as a pimp and prostitute to obtain abortion services for the sex trafficking of 14-year old girls.

Like the Nazis, Planned Parenthood has shown a racial bias and an underlying goal to eliminate the African American race. Although founder Margaret Sanger once stated, "We do not want the word to go out that we want to exterminate the Negro population", the numbers tell the real story. The CDC reports that one of every two African American pregnancies ends in abortion. The majority of Planned Parenthood clinics are in minority neighborhoods. This is no "coincidence."

One of the thousands of children killed every day by abortion

Dr. Alveda King, niece of Dr. Martin Luther King, once said, "14 million African Americans are not here today because of legalized abortion. It's as if a plague swept through America's cities and towns and took one of every four of us."

Yet Planned Parenthood continues to be one of Stericycle's largest corporate clients. *Is this who you want to support with your financial investment?*

## Stericycle's Collection, Transportation and Incineration of Aborted Children

Stericycle not only collects the bloodied tools used in abortions, it collects the remains of aborted children themselves. These murdered children are then transported to Stericycle's incineration plants, where they are burned to ash along with tons of medical garbage. One facility, located in Haw River, North Carolina, services over 20 states. There are nearly a dozen other incineration plants across America.

Stericycle's Haw River incineration plant, where aborted children from over 20 states are burned into ash

If you invest in Stericycle, YOU are profiting from the blood money of the innocent. *Is this the kind of investment that you want to make?*

**Stericycle's collection, transportation and incineration of aborted children must STOP!**  
**Join us in the fight!**
